Message from the top management

The corporate identity of KIYOKAWA plating industry is “The bright future is opened by free originality”. “Free originality” means that a new inspiration and an original idea, which has not with anyone so far. That is to say, never do imitation. Besides, “The bright future is opened” means that our new technology for the next generation will be developed and make a contribution to the society.

The corporate philosophy of KIYOKAWA is “With a freewheeling idea and no imitation, our original plating technology is to be developed with the aim of safety, relief, and saving global environment for the next generation”.

Our original nanometer-scale plating technology without even a single fault in the tens of billions of products permits down-sizing of electronic devices and saves resources and energy for the global environment.

We firmly promise to continue to supply the technology to be need, satisfy, and impress the customers.

Corporate Profile

Headquarters:

1-414 Wadanaka, Fukui-shi 918-8515 Japan

TEL: +81-776-23-2912

Establishment: March 1963

Capital: 40,000,000 JPY

Board of directors:

Executive chairman: Tadashi Kiyokawa

Chief Executive Officer: Hajime Kiyokawa

Senior Managing Director: Takuji Kiyokawa

Managing director: Tadayuki Kiyokawa

Director: Toshio Kiyokawa

Director: Tuneo Shimizu

Director: Masataka Furuichi

Director: Masato Katayama

Nanotechnology Development Center

Number of employees

290 (in April 2019)

ISO certifications

ISO 9001:2015

ISO-14001:2015

ISO/IEC17025:2004

Elemental Technology Center

Plating equipment

Automated barrel plating line

Manually operating rack plating line

Automated wafer plating line

Awards(selection)

- 2005: The special award in *Monodzukuri* Nippon Grand Award by the Minister of Ministry of Economy, Trade and Industry (METI).
- 2006: Nikkei newspaper award in the 3rd Japanese *Monodzukuri* award by Nikkei, inc.
- 2014: The invention prize of the national invention commendation by Japan Institute for Promoting Invention and Innovation.
- 2016: The Commendation for Science and Technology by the Minister of Education, Culture, Sports, Science and Technology (MEXT).
- 2018: Environment Minister's Award for Global Warming Prevention Activity by Ministry of the Environment,
- 2020: Award for Outstandingly Skilled Workers (Contemporary Master Craftsman) by Ministry of Health, Labour, and Welfare (MHLW).

History

- 1963: Establishment of "KIYOKAWA plating works".
- 1967: Started aluminum anodizing.
- 1968: Foundation of "KIYOKAWA Plating Industry".
- 1975: Started plating for electronic devices.
- 1982: Establishment of "KIYOKAWA chemical technology laboratory".
- 1987: Induction the automated zinc plating system.
- 1994: Certificated ISO 9001.
- 1997: Certificated ISO 14001.
- 2000: Establishment of Morita area plant.
- 2002: Establishment of "Advanced Technology Development Center".
- 2008: Certificated ISO/IEC17025.
- 2010: Certificated ISO 14001 ASRP
- 2011: Establishment of "Nanotechnology Development Center".
- 2011: Expanded our technology into the medical field.
- 2013: Started the production of under-barrier-metal plating of the power semiconductor devices.
- 2017: Establishment of "Elemental Technology Center".
